ALUMINIUM DESIGN RADIATORS

cu**bo**

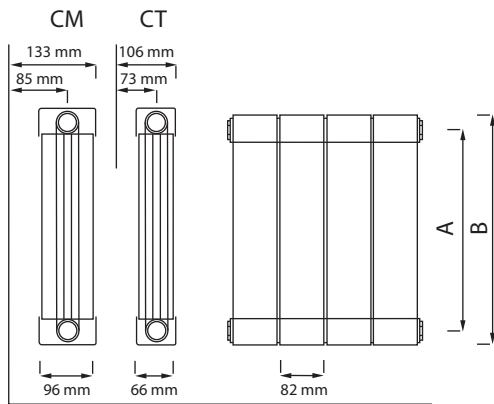

Modern design for your dream space.

www.aklimat.si

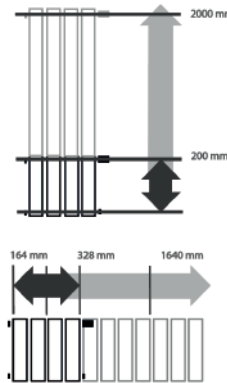

The Cubo product line is a top choice for those looking for a modern and elegant design for their home or office. Cubo is the modern version of the renowned Classic line, characterized by sharp lines and a minimalist approach to design. This line of radiators will undoubtedly brighten any environment. One of the key advantages is its modular design, which allows radiators to be adjusted according to the needs and wishes of the individual.
